

# MASKS

## ANTI-AGE CELL MASK

RETAIL

PROFESSIONAL

### FORMULATION

Gel texture

### SKIN TYPE / CUSTOMER REQUIREMENT

For mature, more demanding skin with lines and wrinkles and/or slack facial contours. For customers who want an instant, long-lasting lifting effect combined with a fresh, full look.

### APPLICATION

1-2 times a week after cleansing, toning, and peeling: Apply thinly to cleansed skin up as far as the lower lashes, leave it on for 10 minutes, then remove any residue with dry wipes (the mask must not be removed with water because it forms a film). Then apply the usual skincare products.

### INGREDIENTS

PhytoCellTec™ Malus Domestica – protects skin stem cells and boosts their activity. Skin appears more vital and full, and lines and wrinkles are greatly diminished.

Reductine® – oat protein that works in three ways:

1. Forms a surface film on the skin which has a smoothing effect
2. Protects and stabilizes the moisture level
3. Stimulates skin cell metabolism and increases the elasticity and resilience of the epidermis

### BENEFIT/ EFFECT

- Firms facial contours
- Smooths and lifts skin
- Reduces lines and wrinkles
- Has a refreshing, cooling effect
- Refines skin texture
- Has an instant and long-lasting effect

### OUR TOP TIP:

This mask can also be used only on the eye area as an eye mask.
