- Cosmetic tissues
- Cotton pads
- Small brush
- Bowl for moulded mask
- Big spatula
- Optional: Vapozone

An application video of Algo Vital Mask can be found here:
<http://sch.sc/applicationvideos>

Special:

- ✓ Moulded algae mask | see page 08

Treatment procedure:

1. Cleanse with Super Soft Cleanser
2. Tone with Herbal Care Lotion
3. Peel with Super Enzyme Peeling
4. Remove peeling
5. Tone with Herbal Care Lotion
6. Apply Hyaluron^{HY+} Performance Serum
Tip: Before applying Algo Vital Mask prepare your customer:
 Fold three cosmetic tissues each to a triangle. Fix them under the headband at the forehead and at the sides of the face – this prevents dirt on the headband.
7. Put 6 measuring spoons of Algo Vital Mask into a modelling cup. Add approx. 130 ml cool water or 125 ml cool water mixed with 5 ml Herbal Care Lotion to the algae powder. Start to stir immediately until no more powder particles are visible and a homogeneous mass without lumps is formed. Spread the mask on the face of the customer, starting on the forehead and working your way down to the neck.
Tip: For claustrophobic clients, do not cover eyes and mouth.
 Let the mask take its effect for approx. 15-20 minutes:
 Application time up to 15 minutes: calming, decongesting
 Application time more than 15 minutes: stimulating
Caution: Do not put the remnants in the sink, as this can lead to blockage
8. Hand and arm massage with Ceraderm Professional Cream
9. Remove the mask from the forehead down to the chin. If necessary, remove dried remnants of Algo Vital Mask with a cotton pad soaked with Herbal Care Lotion
10. Face massage with Ceraderm Professional Cream
11. Remove remnants of the massage cream with lukewarm compress
12. Apply Hydra Maximum Day Cream or Daily Hydra Maximum with SPF 20 as final care

Selling recommendation:

Soft Foam Cleanser | Art.-No.: 408000

- Mild cleansing foam for every skin type
- Thoroughly removes make-up, lipid deposits and dirt particles
- Leaves a soft, delicate skin feeling

Herbal Care Lotion | Art.-No.: 452000

- Calming and balancing effect
- Accelerates the composition of the acid mantle after cleansing

Daily Hydra Maximum • SPF 20 | Art.-No.: 475000

- Intensively provides the skin with moisture
- Provides the skin with new freshness and energy

Hyaluron^{HY+} Performance Serum | Art.-No.: 436000

- Anti-aging and moisture booster
- Firms the skin and reduces the formation of wrinkles
- The skin appears firmer and fresh

Moulded algae mask

Instructions

- ✓ Suitable for all skin types
- ✓ Intensively provides moisture
- ✓ Balances small wrinkles caused by dryness
- ✓ Smoothes and refreshes

One mask – two types of effects:

- Application time of up to 15 minutes: cooling, decongesting and calming effect, suitable for very sensitive skin, even with rosacea and impure skin
- Application time 15 minutes and longer: metabolism-activating (no longer suitable for rosacea and impure skin!)

Tip:

Fold three cosmetic tissues each to a triangle. Fix them under the headband at the forehead and at the side of the face – this prevents dirt on the headband.

Prepare the mask

Put 6 measuring spoons of Algo Vital Mask into a modelling cup

Mix 125 ml cool water with 5 ml of Herbal Care Lotion into a measuring cup

Add the water-tonic mixture to Algo Vital Mask and start to stir immediately

Stir well until no more powder particles are visible and a homogeneous mass without lumps is formed

Apply the mask

Spread the mask on the face of the customer, start on the forehead and work your way down to the cleavage

Let the mask take its effect:

- For approx. 15 minutes: calming, decongesting
- For more than approx. 15 minutes: vitalizing

Remove the mask

Remove the mask from the forehead down to the chin

If necessary, remove dried remnants of Algo Vital Mask with Herbal Care Lotion

Tip: The mask can be removed with the cosmetic tissues
