CLEANSING

INTRODUCTION

Proper cleansing is absolutely essential for radiant, healthy skin:

It is the basis for all the following stages of skincare that are designed to create or protect beautiful, completely flawless skin.

That's because only when the skin is free of dirt, residues, and toxins can it absorb the conditioning products that are subsequently applied. Just as important is the correct choice of cleansing products. They should be chosen to suit skin type, so that they benefit the skin and don't damage it.

After rinsing off the cleansing product, skin should not feel tight or be reddened. It should feel nice to touch.

To complete the cleansing ritual, the right facial toner should follow the cleanser. That will remove traces of cleanser and restore the skin's neutral pH value.

What makes the BIODROGA range of cleansing products so special is that it offers the right product for every skin type.

The products can be combined perfectly, begin the conditioning process even during cleansing and are extremely well tolerated by the skin.

CLEANSING

EYE MAKE UP REMOVER PADS – OIL-FREE –

RETAIL

FORMULATION	Cotton nonwoven pads, soaked in lotion
SKIN TYPE / CUSTOMER REQUIREMENT	Suitable for all skin types. Ideal for customers who want to remove their eye and lip make-up gently but thoroughly.
APPLICATION	Place an EYE MAKE UP REMOVER PAD on water-soluble eye make-up or lipstick, press on gently, wait briefly and then wipe several times.
INGREDIENTS	Wheat bran extract has a soothing and balancing effect
BENEFIT/ EFFECT	<ul style="list-style-type: none">• Modern, hygienic and practical• Removes water-soluble eye make-up and lipstick without irritating the skin
OUR TOP TIP:	Because of the oil-free formula, these pads are perfect for removing eye make-up from customers who wear lash extensions.

CLEANSING

MILKY CLEANSER FOR NORMAL AND DRY SKIN

RETAIL

PROFESSIONAL

FORMULATION

Creamy, light replenishing and conditioning cleansing emulsion

SKIN TYPE / CUSTOMER REQUIREMENT

Perfect for normal or dry skin. For customers looking for a conditioning, silky-soft cleanser.

APPLICATION

Apply a hazelnut-sized amount to moist skin, emulsify with wet fingertips and rinse off thoroughly with water.

Then tone the skin with Skin Lotion mild. Morning and evening.

To remove water-soluble eye and lip make-up, apply 1-2 drops of Milky Cleanser to a moist cotton pad, press on gently, leave for a few seconds, wipe off and rinse thoroughly with water.

INGREDIENTS

D-panthenol has a soothing, calming effect

Liquorice root extract reduces irritation and reddening

BENEFIT/EFFECT

- Conditioning, mild cleansing effect for normal or dry skin
- Cleanses the skin gently and thoroughly, without drying it out
- Preserves the skin's own protective acid mantle
- Gives a velvety soft, conditioned feel immediately after cleansing

OUR TOP TIP:

This product can also be used to remove water-soluble eye and lip make-up.

CLEANSING

CLEANSING OIL FOR VERY DRY SKIN

RETAIL

PROFESSIONAL

FORMULATION

Hydrophilic (attracted to water) oil with a very rich, oily texture

SKIN TYPE / CUSTOMER REQUIREMENT

Perfect for very dry skin that is lacking in lipids, and for very sensitive skin. For customers who want a very nourishing and replenishing cleanser.

APPLICATION

Apply a hazelnut-sized amount of the oil and activate the emulsifier in the oil with wet fingertips. Work in to the skin with circular movements, then rinse off thoroughly with water. This cleanser is always used with Skin Lotion mild. Morning and evening.

To remove waterproof eye make-up, apply a few drops of cleansing oil to a moist cotton pad, press on well around the eyes, leave for a few seconds, then wipe off the eye make-up and rinse skin thoroughly with water.

INGREDIENTS

Apricot kernel oil – very nourishing and soothing
Macadamia nut oil – smooths dry, flaky patches

BENEFIT/EFFECT

- Removes waterproof make-up and eye make-up
- 2-in-1 product
- Soothes very sensitive skin even as it cleanses
- Reduces reddening and irritation
- Very gentle cleansing
- Makes skin feel silky soft

OUR TOP TIP:

This product is highly recommended as a seasonal cleanser for use in winter and cold temperatures in general. It is also especially recommended for customers who like to wear a lot of make-up, or for those who need to remove camouflage make-up.

CLEANSING

CLEANSING FOAM FOR NORMAL AND COMBINATION SKIN

RETAIL

PROFESSIONAL

FORMULATION

Foamy, very light, airy, silky soft texture

SKIN TYPE / CUSTOMER REQUIREMENT

Ideal for normal or combination skin. For customers who prefer a very light, foamy cleanser.

APPLICATION

Work about 2-3 pumps of cleansing foam to a lather with a little water in the hand, apply to the face, neck, and décolletage, and then spread evenly and work it in. Then rinse off with plenty of water. Afterwards, tone the skin with Skin Lotion mild. Morning and evening.

INGREDIENTS

D-panthenol – has a soothing, calming effect

Liquorice root extract – reduces irritation and reddening

BENEFIT/ EFFECT

- Cleanses the skin thoroughly but gently and leaves no residue
- Makes skin feel clean, fresh and pure
- Stabilizes the skin's protective acid mantle
- Soothes irritated and reddened patches
- Reduces any unpleasant feeling of tightness in the skin

OUR TOP TIP:

This cleanser is not just for women; it's also ideal for men, who love the airy, light texture of the cleansing foam and enjoy the fact that it's so easy to apply. They like the way that the foam comes out the dispenser ready to use.

CLEANSING

CLEANSING FLUID FOR IMPURE, OILY AND COMBINATION SKIN

RETAIL

PROFESSIONAL

FORMULATION

Mild, light and antibacterial cleansing fluid

SKIN TYPE / CUSTOMER REQUIREMENT

Suitable for all skin types that tend to produce excess sebum or have impurities.

APPLICATION

Put about 2 pumps of fluid on the palm of the hand, lightly work to a foam with wet fingertips and then apply to the face, neck, and décolletage. Work in again with wet fingertips, and then rinse off thoroughly. Avoid the eye area. Morning and evening.

INGREDIENTS

BioEcolia – an oligosaccharide that promotes healthy skin flora and helps prevent the spread of pathogenic bacteria

BENEFIT/ EFFECT

- Stabilizes the skin's protective acid mantle
- Works to prevent the occurrence of impurities
- Antibacterial effect
- Makes skin feel clean, clear and pure
- Refreshing
- Removes excess sebum

OUR TOP TIP:

This product for impure skin must always be combined with Clarifying Lotion, which is the corresponding tonic. Also effective on impure skin: Fruit Peeling and the products in the Puran Formula range.

CLEANSING

SKIN LOTION MILD FOR ALL SKIN TYPES

RETAIL

PROFESSIONAL

FORMULATION

Mild, light, alcohol-free lotion

SKIN TYPE / CUSTOMER REQUIREMENT

Suitable for all skin types. Can be combined with the following cleansers: Cleansing Oil, Milky Cleanser, Cleansing Foam.

APPLICATION

After cleansing: Put about 2-3 pumps of lotion on a dry cotton pad and tone the face, neck, and décolletage. Morning and evening.

INGREDIENTS

D-panthenol – has a soothing, calming effect

Liquorice root extract – reduces irritation and reddening

BENEFIT/ EFFECT

- Refreshes the skin and stabilizes the skin's own protective acid mantle
- Removes traces of cleanser
- Regulates the pH value of the skin after cleansing
- Soothes minor irritation and reddening
- Perfectly prepares the skin for subsequent stages of skincare

OUR TOP TIP:

Skin Lotion mild can also be used for eye compresses. Soak cotton pads in Skin Lotion mild for this as well. Lay on the eye area and leave for 10-15 minutes, then remove the pads and wipe off any residue with a dry cotton pad.

CLEANSING

CLARIFYING LOTION FOR IMPURE, OILY AND COMBINATION SKIN

RETAIL

PROFESSIONAL

FORMULATION	Clarifying, aqueous, antibacterial lotion
SKIN TYPE / CUSTOMER REQUIREMENT	Suitable for all skin types that tend to produce excessive sebum or have impurities.
APPLICATION	After cleansing, put about 2-3 pumps of lotion on a dry cotton pad and tone the face, neck, and décolletage. Morning and evening.
INGREDIENTS	BioEcolia – an oligosaccharide that promotes healthy skin flora and helps prevent the spread of bacteria that cause impurities
BENEFIT/EFFECT	<ul style="list-style-type: none">• Stabilizes the skin's protective acid mantle• Works to prevent the occurrence of impurities• Antibacterial effect• Makes skin feel clean, clear and pure• Refreshing• Removes traces of cleanser and excess sebum

OUR TOP TIP: This product for impure skin must be used in combination with the right cleansing product, the Cleansing Fluid for impure, oily, and combination skin. Also effective on impure skin: Fruit Peeling and the products in the PURAN FORMULA range.

CLEANSING

CELLUSCRUB FACIAL EXFOLIATOR

RETAIL

PROFESSIONAL

FORMULATION Mild, mechanical creamy gel-type exfoliator

SKIN TYPE / CUSTOMER REQUIREMENT Suitable for all skin types. Except for impure skin.

APPLICATION After cleansing and toning, spread a hazelnut-sized amount on the skin and work it in for 3-4 minutes with wet fingers. Rinse off with water. The facial exfoliator should be used between twice a week and once a month, depending on skin condition: Very sensitive skin, every 14 days. Normal or dry skin, once a week. Hard skin, 2 x weekly.

INGREDIENTS Extract of cucumber – moisturizes the skin, refreshes it and refines its texture

Plant-based squalane – conditions and smooths the skin

Indian bamboo extract – for especially gentle peeling

Peeling particles of modified cellulose – 100% biodegradable!

BENEFIT/ EFFECT

- The gentlest way of removing dead skin cells
- Stimulates new cell growth
- Stimulates microcirculation in the skin, giving a fresh, rosy complexion
- Maintains fat and moisture levels in skin
- Refines skin texture
- Increases the skin's capacity for absorbing subsequent care products and their ingredients

CLEANSING

AHA FACIAL EXFOLIATOR

RETAIL

PROFESSIONAL

FORMULATION

Peeling particles are embedded in a gel base – combination of mechanical peeling and fruit acid

SKIN TYPE

Suitable for all skin types except very sensitive skin.

APPLICATION

After cleaning and toning, apply evenly 1-2 mm thick onto cleansed skin. Leave for 5-10 minutes. Then exfoliate gently with wet fingers, from 2 to 5 minutes depending on the roughness of the skin. After that, carefully remove using moist pads.
IMPORTANT NOTE: This exfoliator should only be used in the evening because fruit acid increases the skin's sensitivity to light. Avoid the eye area!

INGREDIENTS

10% glycolic acid pH 3.5 – removes dead cells, stimulates cell regeneration, refines skin texture, lightens pigmented patches, regulates sebum production

Bisabolol – soothes the skin

Joboba wax beads, fragrance-free, have a mechanical peeling effect

BENEFIT/ EFFECT

- Skin pores are deep cleansed
- Skin becomes smooth and supple
- Skin resilience is improved
- Lines and wrinkles are reduced
- With regular use, causes hyperpigmentation to turn paler
- Regulates sebum production
- Improves the appearance of impure skin

OUR TOP TIP:

In the case of impure skin, this product should only be applied to the skin and not worked in mechanically, as there can be an increased risk of smear infection associated with mechanical rubbing.

CLEANSING

MICRO-DERMABRASION

RETAIL

PROFESSIONAL

FORMULATION

Creamy, sandy texture

SKIN TYPE / CUSTOMER REQUIREMENT

Especially suitable for very rough, thick, large-pored, mature or sun-damaged skin (leathery skin). For anyone wanting a very intensive skin peeling.

APPLICATION

This skin peeling can be used every 14 days as a regular treatment – or even once a week for very rough skin. Apply a hazelnut-sized amount of the skin peeling evenly to moist, cleansed skin. Massage in with wet fingertips for a maximum of 3 minutes, depending on the degree of roughness, and then rinse off thoroughly.

INGREDIENTS

Quartz sand and finely ground pumice stone provide the required peeling effect and leave the skin looking "new".

Plant-based squalane – conditions and smooths the skin

Shea butter is extremely nourishing, and protects and smooths the skin

BENEFIT/ EFFECT

- "Power peeling" visibly and tangibly stimulates the blood circulation to the skin
- Skin cell renewal and regeneration are stimulated
- Improves the skin's microcirculation and metabolism
- Improves the moisture level in the skin
- Reduces lines and wrinkles
- Gives scarring a smoother appearance
- Skin looks fresh and radiant, younger and more balanced
- Leaves skin feeling silky soft

OUR TOP TIP:

In the case of deep acne scarring and dark hyperpigmentation, this product can also be used therapeutically up to twice a week for a month.

CLEANSING

SILKY ENZYME PEELING POWDER

FORMULATION	Fluffy foamy texture
SKIN TYPE/ CUSTOMER REQUIREMENT	For every skintype. Special for sensitive skin, impure skin and skin tending to couperose. For every customers who wants to have a gentle but also effective peeling.
APPLICATION	<p>Blend in a small fat-free bowl with a brush and lukewarm water to form a fluffy foam. Apply to moist skin of face, throat and décolleté (sparing out the eye and lip contours!), let take effect 2-3 minutes, emulsify, thoroughly wash off and clarify skin.</p> <p>An important prerequisite for the action of enzymes on skin is a moist surrounding. The enzymes must be kept moist all the time in order to unfold and maintain their activity.</p>
INGREDIENTS	<p>The Enzyme Complex contained in the Peeling consists of subtilisin (proteolytic enzyme) and lipase (lipolytic enzyme). This combination shows an extraordinary good keratolytic, but also liposoluble effect. The "mortar" between the corneocytes can be loosened while skin is freed from debris.</p> <p>Silk powder imparts a pleasant and supple skin feeling and supplies skin with moisture.</p>
BENEFIT/ EFFECT	<ul style="list-style-type: none">• Removes dead skin flakes and excessive sebum; frees skin from debris• Improves the skin renewal and refines the skin relief• Gives new freshness to dull skin• Imparts a clear and even skin tone• With regular use, scars and fine lines are diminished• Prepares skin for the absorption of the subsequent effective substances
OUR TOP TIP:	Therefore, a dry storage of the peeling powder is important in order to avoid an early activation of the enzymes – therefore protect it against moisture!

CLEANSING

ANTIPERSPIRANT EXTRA MILD

RETAIL

FORMULATION

Very mild, creamy texture, alcohol- and fragrance-free

SKIN TYPE / CUSTOMER REQUIREMENT

Suitable for all skin types, for men and women. Even suitable for sensitive skin.

APPLICATION

After showering, dry the skin and apply the antiperspirant sparingly to the underarm area; leave to dry for 1-2 minutes before getting dressed.

BENEFIT/ EFFECT

- Regulates the production of perspiration and neutralizes body odor
- Very skin-friendly thanks to alcohol- and fragrance-free formula.
- Quick-drying – leaves no residue on clothing
- Gives confidence all day long
- Leaves a lasting sensation of freshness

OUR TOP TIP:

Very reliable even when exercising.

BIODROGA
BIOSCIENCE • INSTITUT

CONCENTRATES

INTRODUCTION

Product quantity does not always determine product effectiveness.

For the BIODROGA CONCENTRATES the principle applies that small is beautiful, or less is more!

These tiny wonder weapons deliver a condensed charge of ingredients to the skin to ensure the skin gets exactly what it needs.

The correct concentration for any skin requirement can be selected on an individual and skin-specific basis and then incorporated into a beauty treatment.

The inclusion of these high-quality products is an absolute must – it's essential for any beauty treatment that's meant to be especially effective and beneficial.

CONCENTRATES

SHEET MASKS & MASKS

INTRODUCTION

Instant beauty – women love face masks. The kick of the ingredients and a pampering treat are just what the skin needs. A face mask means having some "me time", or preparing the skin for a special event, which is why we always associate face masks with something particularly enjoyable.

Face masks are all-round performers that exert their full, powerful effect on the skin within 10-20 minutes. It's a good idea to keep a supply of different face masks at home, so that a range of skin needs can be quickly and efficiently addressed.

Face masks can be used very flexibly:

For a pick-me-up or lifting effect, for a special event or when the skin has had a particularly hard time – for example if one is feeling stressed, had a late night, or just returned from a beach holiday.

An occasional pampering session, to give oneself and one's skin a special treat.

Use regularly in order to harness the power of the ingredients and embed it in the skin.

The kick of the ingredients and a pampering treat are just what the skin needs.

VITAMIN HONEY MASK

RETAIL

PROFESSIONAL

FORMULATION

Very rich, creamy texture

SKIN TYPE / CUSTOMER REQUIREMENT

For very dry, tired and pallid skin that is lacking in lipids, often with flaky patches. Especially suitable for women looking for a rich, stimulating vitamin cure for their skin, as well as a rosy complexion.

APPLICATION

1-2 times a week after cleansing, toning, and peeling: Apply generously to the face, neck, and décolletage, leave it on for 15 minutes, then remove it with moist pads.

INGREDIENTS

Vitamin A palmitate – boosts the cell division rate and therefore the process of epidermis regeneration

Vitamin E acetate – traps free radicals and protects the skin from cell damage and premature aging

Honey – strengthens the skin's own defenses and revitalizes skin, giving it new radiance

Revitalin® – stimulates oxygen exchange between skin cells

BENEFIT/ EFFECT

- Optimizes levels of fat and moisture in the skin
- Reduces lines and wrinkles
- Conditions the skin so it is soft and supple
- Gives skin a rosy, fresh complexion
- Boosts dry, tired skin from inside and gives it renewed vigor

OUR TOP TIP:

The very rich Vitamin Honey Mask is the perfect winter face mask – and it can also be used for massage.

MASKS

DEEP CLEANSING MASK

RETAIL

PROFESSIONAL

FORMULATION

Clarifying, creamy texture

SKIN TYPE / CUSTOMER REQUIREMENT

For all impure skin types, or skin that is prone to inflammation and/or excess sebum production. Especially popular with customers who want their skin to look clear and pure.

APPLICATION

1-2 times a week after cleansing, toning, and peeling: Apply generously to the face, neck, and décolletage, leave it on for 15 minutes, then remove it with moist pads.

INGREDIENTS

BioEcolia® – boosts natural skin flora, stops the spread of pathogenic bacteria, inhibits inflammation and strengthens the skin's own protective acid mantle

Oil reducer – oil-binding properties give shiny patches of skin a more matte appearance

SymCalmin® – relaxes the skin and reduces reddening and itching

Sea algae extract – for intensive skin moisturization

BENEFIT/ EFFECT

- Optimizes levels of fat and moisture in the skin
- Gives excessively shiny skin a matte appearance
- Diminishes skin irritation and reddening
- Boosts natural skin flora, minimizes existing impurities, and prevents the formation of more impurities
- Clarifies and refines the appearance of the skin

OUR TOP TIP:

Can also be used occasionally as a deep cleansing mask for normal skin.

MASKS

ANTI-AGE CELL MASK

RETAIL

PROFESSIONAL

FORMULATION

Gel texture

SKIN TYPE / CUSTOMER REQUIREMENT

For mature, more demanding skin with lines and wrinkles and/or slack facial contours. For customers who want an instant, long-lasting lifting effect combined with a fresh, full look.

APPLICATION

1-2 times a week after cleansing, toning, and peeling: Apply thinly to cleansed skin up as far as the lower lashes, leave it on for 10 minutes, then remove any residue with dry wipes (the mask must not be removed with water because it forms a film). Then apply the usual skincare products.

INGREDIENTS

PhytoCellTec™ Malus Domesticus – protects skin stem cells and boosts their activity. Skin appears more vital and full, and lines and wrinkles are greatly diminished.

Reductine® – oat protein that works in three ways:

1. Forms a surface film on the skin which has a smoothing effect
2. Protects and stabilizes the moisture level
3. Stimulates skin cell metabolism and increases the elasticity and resilience of the epidermis

BENEFIT/ EFFECT

- Firms facial contours
- Smooths and lifts skin
- Reduces lines and wrinkles
- Has a refreshing, cooling effect
- Refines skin texture
- Has an instant and long-lasting effect

OUR TOP TIP:

INTENSE MOISTURE FORMULA

INTRODUCTION

Water is life!

Skin needs moisture, too, in order to maintain all its functions and look radiant and fresh as well.

All the skincare products in the INTENSE MOISTURE FORMULA range contain a special blend of ingredients that act as thirst-quenchers to the skin.

These leading ingredients are combined in a complex called the BIOACTIVE MOISTURE COMPLEX, which consists of hyaluronic acid, super-hyaluronic acid and madecassoside.

Hyaluronic acid (high molecular weight) and super-hyaluronic acid (low molecular weight) act like a water magnet for the skin. They bind in enormous quantities of moisture – 1g of hyaluronic acid can bind up to 6 liters of water.

Hyaluronic acid HM coats the skin like a protective film of moisture and protects it from moisture loss.

Super-hyaluronic acid LM penetrates the skin and plumps it up from inside, binding the moisture in deep and making the skin look plumper.

Madecassoside is a valuable component of the Centella Asiatica, the tiger grass growing in Madagascar, and is an effective moisturizing agent that starts on several levels. Madecassoside promotes the formation of moisturizers in the skin – the so-called "aquaporins". This ensures an even distribution of moisture. In addition, the firmness of the skin is supported, the skin protection barrier is strengthened, and the skin's own restructuring capacity is improved.

**An effervescent source of moisture for the skin
that makes skin feel simply great.**

INTRODUCTION

Sensitive skin behaves like a mimosa plant: It flakes, twitches, and reddens. Often it is stretched, or even burns or develops spots. But why is it that skin can be so sensitive?

The skin's protective barrier works best if skin is undamaged and well moisturized, because the skin's own protective acid mantle is able to neutralize bacteria and environmental pollution. The horny layer (stratum corneum) forms a wall by creating an almost impenetrable protective layer of cells, lipids, and water.

Any "gap" in this protective wall unbalances the skin, leading to the signs of sensitivity described above.

Hormonal changes, an unhealthy lifestyle or extreme weather conditions can all bring the skin out of balance – as can use of the wrong cleansing or conditioning products as well.

It's therefore all the more important to use a range of care products that are specially made for such sensitive skin.

In order to keep skin sensitivity to a minimum, BIODROGA has carefully chosen the ingredients for its SENSITIVE FORMULA range – ingredients that restore the skin's balance and boost its resilience.

What's more, all the products in this range have a skin-neutral pH value and are free of any preservatives (such as parabens), colorants, mineral oil, and fragrance.

The BIOACTIVE SENSITIVE COMPLEX, consisting of DMC and panthenol, is the main complex in SENSITIVE FORMULA.

The Derma Membrane Complex (DMC) is an alternative to traditional emulsifiers. Because of its "skin-based" structure and "skin-like" ingredients, it is extremely compatible and stabilizes the skin's protective barrier.

Panthenol was chosen because it is a soothing, anti-inflammatory ingredient that helps reduce minor skin irritations and reddening.

INTRODUCTION

Our lungs aren't the only organ that needs vital oxygen; skin also sends out signals when it can't "breathe" properly.

Tired, pallid skin with a hint of grey is not very attractive. This appearance can be caused by stress, an unhealthy diet, too much fast food, or smoking.

BIODROGA has found the perfect solution here with the BIOACTIVE NUTRI COMPLEX, which consists of Revitalin® and biopeptides:

Of course, we can't provide the skin with oxygen in a cosmetic care product. But, thanks to Revitalin®, we can stimulate the exchange of oxygen between skin cells, which creates a rosy, fresh, and healthy-looking complexion.

Biopeptides stimulate collagen synthesis and strengthen the epidermis.

As a professional adviser, you will also recommend that your customers stick to a healthy diet and spend plenty of time moving around outdoors.

Most people experience impure skin at some time in their life – and teenagers in particular often find spots, blackheads or even acne appearing on their face. This is due to hormonal changes during puberty. However, adult women can also suffer from impure skin during the menstrual cycle (second half – when testosterone production is increasing), as a result of hormonal changes during pregnancy, or after menopause sets in.

Of course, there are also other reasons for impure skin apart from hormonal causes. These may include stress, medication, genetic factors, or diet. Both men and women can be affected.

The wonder weapons in the PURAN FORMULA range containing the BIOACTIVE PURAN COMPLEX combat impure skin by stimulating the skin to fight any existing impurities, whether visible or concealed beneath the skin, and also prevent new impurities from appearing. This complex consists of the ingredients BioEcolia® and panthenol.

BioEcolia® is an oligosaccharide that prevents the spread of harmful bacteria that can cause impurities. It boosts the natural, healthy skin flora and strengthens the skin's protective acid mantle.

Soothing panthenol relieves slight reddening and irritation and prevents inflammation.

After cleansing and toning, Anti-Blemish Creme, serum/fluid/concentrate, finishing treatment (if required): Spread generously and evenly over the face.

INGREDIENTS

Bioactive Puran Complex with BioEcolia® and panthenol
Vitamin E acetate – has antioxidant properties

Apricot kernel oil – makes skin feel conditioned and velvety soft

Protection from light/SPF 15 – protects from premature skin aging caused by sunlight

BENEFIT/ EFFECT

- Combats pathogenic bacteria
- Makes even impure skin that is struggling with spots and reddening look beautifully fresh and radiant again
- Raises the lipid and moisture levels in the skin
- Protects the skin from free radicals
- Protects skin from premature aging caused by sunlight
- Skincare and make-up all in one

OUR TOP TIP:

The BB Cream can be used as a 2-in-1 product with the "skincare and make-up all in one" effect without having to apply a finishing treatment first, although it can also be combined with one. For more intensive coverage, BB Cream can also be applied in two layers on top of one another.

REPAIR & CELL PROTECTION

INTRODUCTION

A little sunlight has a positive effect on our body: The sun's rays boost our defenses against infection and give us a feeling of well-being. Sunlight is important for the formation of vitamin D, and it also improves our respiration, circulation, blood flow, and metabolism.

However, excessive sunshine is harmful for our skin, leads to premature aging of the skin (75% of all skin aging is caused by UV radiation) and, in the worst case, can cause skin cancer.

That's why it's important for the skin to be protected from UV radiation, and that its natural repair mechanisms should be supported as well.

The BIOACTIVE REPAIR COMPLEX, consisting of alpine rose stem cell extract and the Repair Complex, has three different effects: repair, anti-UV stress, and anti-wrinkle.

PhytoCell Tec™ Alp Rose is the stem cell extract from the leaves of the alpine rose.

It protects skin stem cells, boosts their vitality, strengthens the skin's protective barrier and resilience, and protects skin from moisture loss as well.

The Repair Complex activates and supports the body's own capacity to repair the skin, and the natural dark repair mechanism, even where skin has already been damaged by sunlight.

**BIODROGA REPAIR + CELL PROTECTION –
an absolute must for all sun-worshippers
and anyone who enjoys spending time outdoors.**

DAILY CARE SPF 15

RETAIL

PROFESSIONAL

FORMULATION

Soft, creamy emulsion

SKIN TYPE / CUSTOMER REQUIREMENT

For all customers who like to enjoy the sunshine and spend a lot of time outdoors (gardening, sports, hiking etc.)
Can also be used on skin that has already been damaged by sunlight.

APPLICATION

In the morning, after applying a facial oil/serum/fluid/concentrate, spread over the face, neck, and décolletage and lightly massage it in.

INGREDIENTS

PhytoCell Tec™ Alp Rose – promotes the vitality and functioning of skin stem cells, strengthens the skin's protective barrier, and makes skin more resilient

Repair Complex – activates the skin's own repair mechanisms, even where there is existing damage from the sun

Peptide complex – improves the skin's defensive function and promotes collagen synthesis

Ectoin – "high-tech biocell protection" which activates the skin's own immune defenses and protective mechanisms

BENEFIT/ EFFECT

- Conditions and smooths the skin
- Increases the skin's resilience
- Activates the skin's own natural repair function
- Prevents premature skin aging caused by sunlight
- Protects the skin from UV radiation
- Reduces lines and wrinkles

OUR TOP TIP:

IMPORTANT: It is not enough simply to use the right skincare products to protect skin from UV radiation. The well-known "sunshine rules", such as avoiding the midday sun, should always be observed as well!

ENERGIZE & PERFECT

INTRODUCTION

In our younger years, we usually don't worry much about skin aging. But after a few years have gone by, we might one day look in the mirror in amazement and ask ourselves why our skin, and therefore our whole face, suddenly looks so tired... or simply older... It must have happened overnight! Which of course is not true. Skin does not age from one day to the next.

It is important that we take preemptive action against skin aging and work to counteract its effects at an early stage.

One important factor here is the energy supply to the skin. Only if skin has enough energy can it consistently perform all of its functions and renewal processes. A lack of energy in skin is often reflected in a loss of its vitality and radiance, as well as tired and puffy areas around the eyes.

The ENERGIZE & PERFECT range, which contains the BIOACTIVE ENERGY COMPLEX consisting of matrix peptides and Vitamin E acetate, forms the perfect basis for a preventive anti-aging program that supplies the skin with fresh energy. It is perfect for the transition from basic skincare to specialized anti-aging care. What's more, it can also be used generally for intensive revitalizing of the skin at any age.

Matrix peptides help the skin produce new collagen and maintain elasticity, and they also help smooth lines and wrinkles.

Vitamin E acetate, with its antioxidant properties, protects the skin from premature aging.

ANTI-AGE FACE OIL

RETAIL

FORMULATION

Dry, easily absorbed face oil

SKIN TYPE / CUSTOMER REQUIREMENT

For tired-looking, lipid-deprived, and/or sensitive skin with lines and wrinkles. Suitable for all customers who want extra conditioning to help prevent feelings of tightness.

APPLICATION

Morning and evening, after cleansing and toning: Apply to face, neck, and décolletage and gently massage it in. Day, night, and 24h care products can also be enriched by adding 2-3 drops of face oil.

INGREDIENTS

Vitamin E – antioxidant properties, prevents premature skin aging

Vitamin A palmitate – an anti-aging vitamin that boosts the cell division rate and thus has a beneficial effect on the cornification process

Evening primrose oil – provides valuable lipids for the skin and soothes it

BENEFIT/ EFFECT

- Gives skin perfect all-round protection from free radicals
- Helps prevent premature aging of the skin
- Gives the skin vitality and suppleness
- Supports skin regeneration
- Smooths dry, flaky patches
- Promotes the skin's defensive function

OUR TOP TIP:

This product can also be used to keep the cuticles soft and supple. We also recommend the Face Oil as an outstanding extra care product in cold weather. Any day, night, or 24h care product can be enriched by adding just a few drops that will prepare the skin for the winter.

ANTI-AGE CELL FORMULA

INTRODUCTION

ANTI-AGE CELL FORMULA is a complete care concept that combines several anti-aging effects. It goes to work where chronological skin aging begins and gives skin more energy and vitality.

ANTI-AGE CELL FORMULA is based on the BIOACTIVE ANTI-AGE COMPLEX, which consists of argan stem cells and biopeptides.

Argan stem cell extract has the ability to revitalize and protect human skin stem cells, giving the skin greater firmness and density and reducing the depth of existing wrinkles.

Biopeptides perfectly complement the effect of the stem cells because they are messenger substances that get the skin to perform its natural functions more effectively. The biopeptides send signals to the skin cells that stimulate them and consequently boost collagen, elastin, and hyaluron synthesis, for example.

The complex also contains premium-quality leading ingredients such as apple stem cell extract and AquaCacteen.

**ANTI-AGE CELL FORMULA – strengthens the framework of the skin,
restructures it, and moisturizes it intensively
for greater tautness and elasticity.
Puts the skin in great shape!**

PERFECT AGE FORMULA

INTRODUCTION

The menopause is a time of change for women, in particular due the new structure of the female hormone balance.

Hormones are also described as biochemical messenger substances which initiate certain processes in the body. In skin, they serve as catalyzers which, for instance, stimulate the collagen synthesis and the cell division, improve skin's blood flow and consequently guarantee the perfect supply of the cell with oxygen and nutrients.

Hormonal signal substances also regulate skin's sebum production and its moisture balance.

Due to the fact that the femal hormone level, i.e. the estrogen level, diminishes, within the first five years after the menopause almost a third of skin collagen is lost. Consequently, our largest organ loses stability, volume, water-binding ability and radiance. Sunken and inelastic skin and saggy contours are the result. The V shape of the face turns into an "A" shape.

All these processes cannot be stopped completely. Besides simply accepting these symptoms, the look of skin can be improved with the use of selected care products. Despite the signs of time, also mature skin can be perfect – perfect for your age.

Powerful products of the PERFECT AGE FORMULA line create a V-lifting effect thanks to their unique and powerful ingredient packages. They lift the facial contours like an elevator and tighten them. Selected ingredients firm and restructure the skin of face, stimulate the collagen synthesis, prevent elasticity loss and stabilize the moisture balance of demanding skin.

The Bioactive Restructuring Complex, consisting of valuable monk's pepper extract and highly active biopeptides, forms the basis of the marvelous V-lifting formula. Exclusive moss cell extract - the first ingredient gained from biotechnologically manufactured moss - rounds out the perfect formula for skin 50+.

PERFECT AGE FORMULA

REKONTOURING SERUM

FORMULATION

Refreshing Gel Serum

SKIN TYPE / CUSTOMER REQUIREMENT

For mature skin with lines and wrinkles, contour, elasticity and/or volume loss. For all clients who wish a V-lifting effect, lifting the facial contours upwards, contrary to force of gravity, with a firming and restructuring effect.

SPECIAL FEATURE

It is the only product in this line containing a special signal peptide which relaxes the facial muscles and minimizes expression lines.

APPLICATION

In the mornings and evenings, after cleansing and clarifying, apply to face, throat and décolleté and work in. Compatibility with apparatus-assisted cosmetics:

- Ultrasound
- After a treatment with radio frequency
- Galvanic current: alternately + and –

INGREDIENTS

Bioactive Restructuring Complex – consisting of monk's pepper + biopetides:

Monk's pepper – The extract gained from monk's pepper berries stimulates the activity of the β -endorphins and the production of DHEA youth hormone). The youthful look of skin and its elasticity are demonstrably improved.

+

Biopetptides – Stimulate the collagen synthesis, improve skin's elasticity and have a positive effect on the wrinkle depth.

Moss cell extract – Improves the activity of the cell core, ameliorates the adaptability and resistance of skin towards environmental influences and optimizes its moisture balance.

Signal peptide – relaxes the facial muscles and thus supports the minimization of expression lines.

Hyaluronic acid – sustainably and noticeably replenishes the moisture depots of skin.

BENEFIT/ EFFECT

- Tightens the facial contours by means of a V-lifting effect
- Has a firming and restructuring effect
- Optimizes skin's moisture balance
- Relaxes the facial contours and counteracts the development of expression lines

GOLDEN CAVIAR

INTRODUCTION

GOLDEN CAVIAR: words that epitomize luxury, choice ingredients, maximum efficacy, a pampering care experience, and velvety-feeling skin.

This care product range was created for customers for whom only the best is good enough. For everyone who wants the ultimate skincare experience and likes to treat themselves to the luxury of smooth textures, wonderful fragrances, and high-quality ingredients.

Caviar extract is an ingredient in all the products in this range. This precious substance is said to stimulate the skin's metabolism and microcirculation. This minimizes early lines and wrinkles and forestalls the premature aging process caused by environmental factors. Caviar extract boosts the skin's moisture-binding capacity and balances out its moisture level, making skin appear smoother and perfectly conditioned.

Depending on the product, other ingredients specially selected to support, complement, and enhance the effectiveness of the caviar extract are also included.

**With GOLDEN CAVIAR, one can enjoy a small
but amazing luxury
that can be both seen and felt!!!**

INTRODUCTION

The structure of men's skin is definitely different from that of women, so men can naturally expect to be offered skincare products that are specifically tailored to their needs. Regular shaving systematically deprives men's skin of moisture and fats, for example, and men's skin also has a thicker horny layer – 20% thicker than that in women's skin.

Men's skin elasticity is also higher initially. Because of the different tissue structure and the thickness of the skin, a man's skin normally stays firm and taut until about the age of 30, after which it loses its elasticity and firmness much faster than is the case with women.

The sebaceous glands also work in a different way in men's skin, because the gender hormones (androgens) affect the lipid metabolism in the sebaceous glands. All these differences clearly show that men have different skincare needs from women – and all these needs are met by the BIODROGA MEN range.

**BIODROGA MEN – contemporary skincare products
to meet all needs!**

INTRODUCTION

Perfect complexion, perfect radiance, perfect self-confidence. Foundations nowadays are far more than just make-up – they are rightly regarded as smart all-rounders. The main focus with make-up today, regardless of its coverage, is to create natural-looking radiance. It needs to conceal minor beauty defects perfectly, produce an even complexion, and create the impression of fresh, flawless skin for hours.

For BIODROGA as a skincare specialist, it goes without saying that a foundation needs to not only magically create a smooth, perfect complexion but also meet the same high standards as a care product – i.e. excellent compatibility, intensive conditioning and protective properties, and a wonderful texture that flatters the skin.

The ideal foundation make-up matches one's natural skin color perfectly and provides for a flawless complexion. BIODROGA offers two alternative foundations, different in their coverage and richness, to cater to all the individual needs and preferences of its customers. The growing popularity of these foundations is reflected in the sales figures. The growth in sales to the age groups below 20 and above 60 is particularly noticeable. A major role here is played by our ever-improving formulas with excellent conditioning properties and natural-feeling textures.

**Get a perfect complexion without the mask effect;
minimize the effects of time.**

INTRODUCTION

Just relax! How often do we hear this said – and yet in most cases it's easier said than done. The hectic world around us takes its toll. The family, high expectations at work, and the stress of time management can all "get under our skin". How very apt this common expression is!

However, with the right skincare concept, we can quickly create little islands of wellbeing and balance that will have visible effects: Not only will our skin become radiant, but our self-confidence will also come flooding back. In these stressful times, we should never forget the magic word RELAXING – switching off and doing something for oneself...

The BIODROGA BODY SPA RELAXING range promises balance and harmony that will benefit the entire body.

The signature fragrance of the range of jasmine flower and tangy cedar wood has a harmonizing, balancing effect that helps one slow down mentally.

The closed lotus flower that adorns all BIODROGA BODY SPA RELAXING products symbolizes relaxation.

INTRODUCTION

Virtually all women complain about some problem zone or another, yet a well cared-for appearance is almost a must these days. Of course, visits to the beauty salon and the use of high-performance cosmetics should always be accompanied by a recommendation to maintain a balanced diet, get plenty of exercise, and lead a healthy lifestyle.

The innovative body care products in the PERFORMANCE range are designed to tackle specific skin problems, such as unsightly dimples on the buttocks and upper thigh, or (extremely) dry skin.

None of the products use any mineral oils or parabens, PEG emulsifiers, silicones, or synthetic fragrances.

The benefits of this effective product range in tackling problem areas are symbolized by the central lotus flower.

RE-SHAPING ANTI-CELLULITE CREAM

RETAIL

PROFESSIONAL

FORMULATION

Creamy texture

SKIN TYPE / CUSTOMER REQUIREMENT

Suitable for all skin types. For everyone who has a problem with unsightly dimples on their buttocks, upper arms, or stomach and wants to smooth the surface of the skin, encourage the breakdown of fat, and minimize the formation of cushions of fat.

APPLICATION

Apply the Anti-Cellulite Cream 1-2 times a day on the affected problem areas on the upper thighs, buttocks, and stomach and massage it in with circular movements.

INGREDIENTS

Poppy extract – obtained from the seed pods of the poppy flower – is one of the newest anti-cellulite ingredients. This extract helps reduce the accumulation of fat deposits and also supports the processes that break them down.

Peptides and algae extracts – smooth the skin structure and make the skin firmer

Apple stem cell extract – protects the skin stem cells and boosts their activity, reduces lines and wrinkles

BENEFIT/ EFFECT

- Provides effective support to help prevent cellulite from appearing
- Helps smooth the skin structure
- Makes the skin firmer
- Stimulates microcirculation in the skin
- Helps drain connective tissue in the skin

SPECIAL TIP:

For a more dramatic improvement in terms of cellulite, one should exfoliate regularly, drink an adequate amount of liquids, get plenty of exercise, and pay attention to one's basic diet. Regular Kneipp treatments are also recommended.
