INTRODUCTION TO BIOMEDICAL EMPORIUM PRODUCTS

Dr Judey formulated a unique and proudly South African Biomedical Skincare brand registered as Biomedical Emporium.

She utilizes clinically proven pharmaceutical graded active ingredients, combined with tertiary peptide technology that is based on innovative biotechnology formulation techniques. Biomedical Emporium, as a company primarily focuses on the design, development, manufacturing and distribution of biomedical products for the Pharmaceutical, Cosmeceutical and Medical Device Industries.

The Biomedical Emporium skin care range comprises of the maximum amounts of active ingredients, at optimal concentrations that work synergistically and holistically on a molecular level to promote a therapeutic response.

All products undergo strict quality control testing for product safety, quality and efficacy.

NO PRODUCTS ARE TESTED ON ANIMALS.

ALL PACKAGING CAN BE RECYCLED.

AIRLESS PACKAGING

OUR PRODUCT RANGES ARE:

The Advanced Serum Range

The Advanced Serum Range works ultimately in the dermis, as the molecular structure is small enough to penetrate immediately to the fibroblasts. Pharmaceutical grade raw materials are used, with pure active ingredients to improve the cellular activity and cellular metabolism.

The Silver Diamond Range

This range of products moisturizes and nourishes the epithelial layers of the skin. The molecular structure is bigger, resulting in a slow release of the active ingredients to stimulate and ensure functionality in the epidermis for the keratinocytes.

Professional Exfoliating Peel Sets

This product is ONLY available to Skincare Clinics, Aestheticians, Medical Professionals, and Dermatologists as treatments may only be offered and conducted by qualified professionals.

The Professional Range

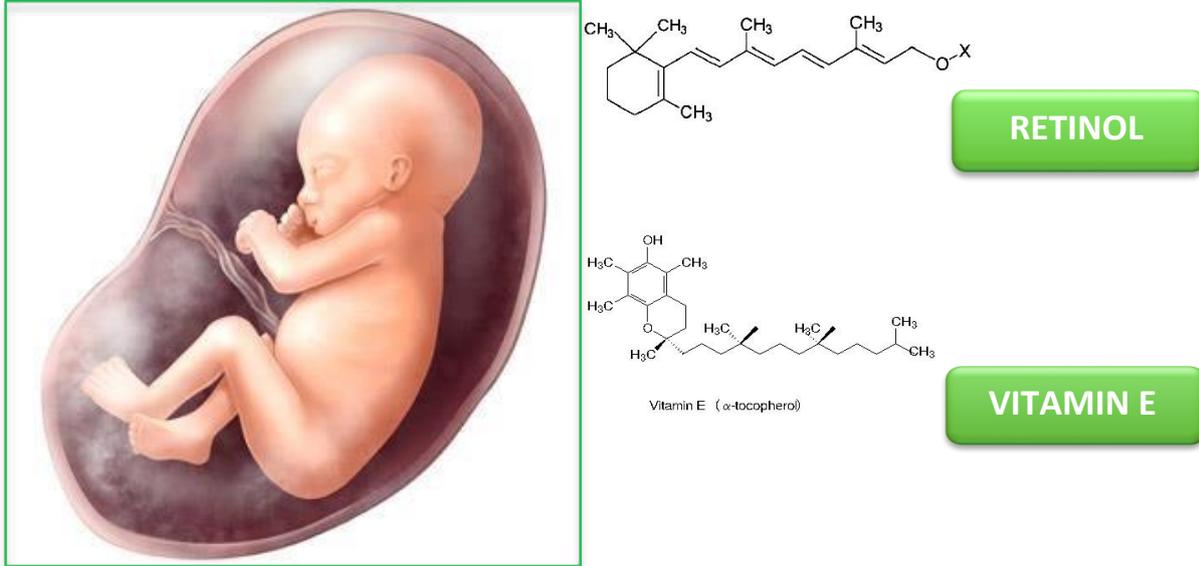

The Professional Skincare Range was formulated for licenced aestheticians and medical practitioners to deliver innovative skincare solutions to their patients. The Rx range has been scientifically formulated within the disciplines of Biomedical Science and Skin Tissue Engineering to optimize skin therapeutic health based on the latest advances in skin therapy technologies with unique delivery systems, bio-engineered complexes, and exclusive topical administration protocols. Biomedical Emporium provides comprehensive skincare programs for aestheticians, practitioners and their clients. We have been sourcing medical grade active ingredients that comply with compendia standards and formulated at high concentrations and combinations to provide clients with visible results, suitable for all skin types and to address many skin concerns.

SECTION A

1. Skin Histology

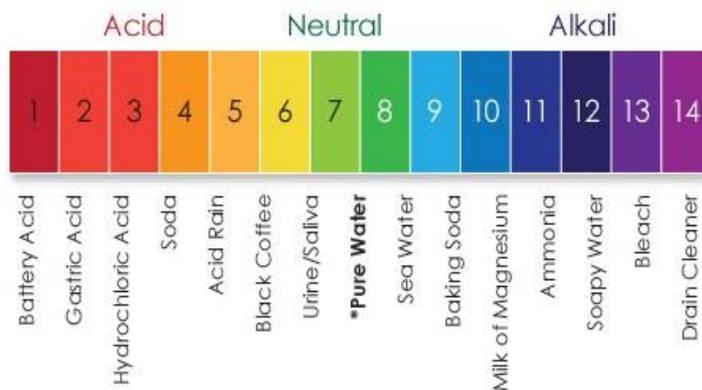

1.1 Physiology of the Skin Layers

1.2 Moisture Content and pH-Balance of the Skin

The **acid mantle / protective barrier** is a very fine, slightly acidic film on the surface of human skin acting as a barrier to protect the skin from bacteria, viruses and other potential contaminants that might compromise the skin barrier.

Sebum is secreted by the sebaceous gland and as soon as it mixes with sweat it automatically forms the acid mantle. The pH of the skin is between 5.2 and 5.8, hence slightly acidic.

SPECIALISED PRODUCTS

SCALP	Scalp Serum Scalp calming serum and hair follicle stimulant. - Inflamed scalp - Hair thinning and hair loss.	PM	
	Makeup Remover Gentle eye and lip makeup remover with potent antioxidant properties. Pre-cleanser to remove all makeup debris.	PM	
	Hand-Refine Peel Kit Cellular restructuring and advanced skin hydration, promoting the removal of corneocytes. - Chemical Peel set for ageing hands. (Only apply once every 3 days)		
FACE	Wound Occlusive Cellular restructuring and advanced skin hydration, skin healing and calming. Anti-microbial scar and wound treatment.	AM PM	
	Skin Biotic Cream C Skin Microbiome to restore optimal skin biodiversity, immunity and homeostasis.	AM PM	
	Taste Increase your metabolism, boost energy levels, enhance skin health and acts as an antioxidant.	AM	
	Exfoliating Peel kit (3 x 15ml) Promotes the cycle of skin shedding or cell turnover. Reduces fine lines and wrinkles. Reveals a smoother, brighter skin.	PM	
	HOCI Solution Hypochlorous Solution, reduces redness, minimises inflammation, treats infection and reduces pain.	AM PM	
	Forté Lipid soluble serum that can be applied daily as the last step in your skincare routine (Hydrates your skin, Skin calming, Restore your skin barrier, prevent sun spots)	PM	
HANDS

SECTION B

1. ADVANCED SKIN SERUMS

1.1. Retinol Serum

Active ingredients:

- Niacinamide (5 %)
- Retinol (1.75 %)
- Vitamin E
- Co-enzyme Q10

Description:

- Reduces hyperpigmentation.
- Improves epithelization of the skin.
- Improves the appearance of fine lines and wrinkles.
- Assists to normalize the physiology of the epidermis - thus leads to an improved barrier function and helps retain skin moisture.

Skin type: all skin. For sensitive skin, need to build up really slowly.

Retinol Serum promotes the maintenance of antioxidant systems, soothes and protects skin cells against solar damage, slows down the destruction of skin proteins, builds new proteins and improves DNA health and protects against UV radiation.

Directions:

Do not use with other retinol products. Use only at night.

At home: Apply on cleansed skin every other night for a week and if skin can tolerate, increase to every night. Use only at night. Do not combine with other retinol products. Do not use while pregnant.

In treatment: You can microneedle (0.5 depth) it but make sure to put on SPF afterwards and tell client not to go in the sun.

RETINOL SERUM PROMOTES THE MAINTENANCE OF ANTIOXIDANT SYSTEMS, SOOTHES AND PROTECTS SKIN CELLS AGAINST SOLAR DAMAGE, SLOWS DOWN THE DESTRUCTION OF SKIN PROTEINS, BUILDS NEW PROTEINS AND IMPROVES DNA HEALTH AND PROTECTS AGAINST UV RADIATION - ASSISTING IN THE REDUCTION OF THE SIGNS OF AGING.

1.2. Collagen Serum

Active Ingredients:

- Low molecular-weight Hyaluronic Acid (fractionated) (2 %)
- Medium molecular weight Hyaluronic Acid
- Sodium Hyaluronate
- Niacinamide
- Vitamin E

Description:

- Enhances firmness.
- Prevents wrinkles.
- Retains skin moisture.
- Improves skin elasticity.
- Long-term cellular hydration.
- Stimulates collagen and elastin synthesis.

Skin Type: all skin

Great for microneedling.

Directions:

At home: Apply on cleansed skin morning and/or night.

In treatment: Can microneedle (0.5 depth) it or use without microneedling.

COLLAGEN & ELASTIN ENHANCEMENT THERAPY IS A POWERFUL BUILDER OF THE SKIN MATRIX THAT PROMOTES THE CELL'S ABILITY TO UPHOLD THESE PROTEINS, THEREFORE IMPROVING AND PROTECTING THE SKIN AGAINST SEVEN SIGNS OF AGEING.

1.3. Anti-Acne Serum

Active Ingredients:

- Retinol (1 %)
- Salicylic Acid
- Allantoin
- Niacinamide (5 %)
- Tea Tree Oil
- Zinc Oxide

Description:

- Helps alleviate irritable skin.
- Skin calming agent.
- Anti-inflammatory properties.
- Anti-microbial properties.
- Decreases sebum production.
- Reduces pore size.
- Clearing & purifying medium - calming and soothing effect.

Skin Type: oily, combination, any acne (oily or dry)

Directions:

Do not use with other retinol products.

Can Microneedle.

Home: Apply on cleansed skin in the evening. Do not use during the day because it contains retinol. Do not use more than one retinol product at a time. Do not use while pregnant.

Treatment: Can microneedle (0.5 depth) or use alone. Must apply sunscreen afterwards and tell client not to go in the sun.

1.4. Dark Spot Serum

Active Ingredients:

- Retinol (1 %)
- Arbutin
- Ascorbic Acid (15 %)
- Niacinamide (5 %)
- Ellagic Acid

Description:

- Tyrosinase inhibitor serum
- Decreases skin pigmentation resulting from ultra-violet radiation and suppresses the production of melanin due to inhibition of tyrosinase activity.
- Improves skin tone and brightness.
- Reduces hyperpigmentation.
- Antioxidant activity – captures free radicals and inhibits their skin damaging effect.
- Inhibition of skin damage caused by UV radiation.
- Has a brightening effect on the skin.

Skin Type: all skin.

Directions:

Do not use with other Retinol products. Only use at night.

Can microneedle.

Do not use during the day because it contains retinol. Do not use with other retinol products. Do not use while pregnant. Best if used with Complexion Correction Cream (which can be used morning and evening).

Home: apply in evening to cleansed skin. You can use all over the face or just on pigmented areas.

Treatment: can microneedle (0.5 depth). Must use sunscreen and tell client not to go in to the sun.

COMPLEXION AND BRIGHTENING THAT ASSISTS IN THE IMPROVEMENT OF SKIN HYPERPIGMENTATION, DECREASES MELANOCYTE PRODUCTION, PROMOTES SKIN SMOOTHNESS, AND SUPPORTS A RADIANT SKIN APPEARANCE.

1.5. Skin Repair Serum

Active Ingredients:

- Salicylic Acid (2 %)
- Tea Tree Oil
- Niacinamide (5 %)
- Vitamin E
- Allantoin

Description:

#1 top retail seller

- Suitable for all skin, including - dry, sensitive, and stressed skin.
- Great for after peels, microneedling and sunburns
- Promotes wound healing.
- Scar treatment.
- Helps alleviate irritable skin.
- Skin calming agent.
- Anti-inflammatory.
- Reduces pore size.
- Reduces skin roughness.
- Skin Calming Complex.

Directions:

Apply every morning and/or evening on cleansed skin. Not beneficial to microneedle. Can also be used in the treatment room.

1.6. Forté

Active Ingredients:

- Peptide Oil
- Hyaluronic Acid
- Vitamin E

Skin Type: normal, dry, dehydrated.

Description:

- Anti-inflammatory.
 - Potent antioxidant.
 - Provide hydration.
 - Prevent sunspots.
 - Restore skin barrier.
 - Great primer for makeup.
 - Directions: Apply mornings and/or evenings as your last step in your beauty routine – just before makeup and sunscreen. Great primer - f wearing under makeup, let it get absorbed into your skin before applying makeup.
-

LIPID SOLUBLE SERUM THAT CAN BE APPLIED DAILY AS THE LAST STEP IN
YOUR SKINCARE ROUTINE

1.7. Diamond Hyaluron Filler

Active Ingredients:

- Hyaluronic Acid
- Vitamin E
- Mannitol
- Diamon Gemstone Powder

Description:

- Promote skin cell regeneration.
- Creates GLOW effect.
- Plumps up skin.
- Prevent premature aging.
- Natural exfoliator that assists with removal of skin toxins.
- Enables you to regain your youthful glow.
- Increase extra-cellular matrix components.
- Immediate and progressive intense moisturizing effect.

Skin Type: For normal to dry skin; great for dehydrated skin.

Directions:

Use daily under your moisturizer.

Must be kept in original black box always, except when using.

1.8. Facial Cleanser

Active Ingredients:

- Salicylic Acid (2 %)
- Coconut Oil
- Peptides – Tissue Protective Technology

Description:

- Anti-inflammatory.
- Deep cleansing.
- Skin degreasing properties.
- Decreases sebum production.
- Improves skin appearance.
- Reduces pore size.

Skin Type: all skin.

Directions:

At home:

- 1) Mix with water, cleanse skin and remove with warm water. When wearing makeup do a 2nd cleanse.
- 2) You can leave cleanser on for 5- 10 minutes for deeper cleansing once a week.

In the treatment room:

- 1) Mix with water, cleanse skin and remove with warm water. When wearing makeup do a 2nd cleanse.
 - 2) You can leave cleanser on for 5- 10 minutes for deeper cleansing.
 - 3) You can also steam for 5 minutes with the Facial Cleanser and then remove it and then do extractions. Spray HOCl after extractions.
-

2. SILVER DIAMOND RANGE

2.1. Luminous Milk Cleanser

Active Ingredients:

- Niacinamide (5 %)
- Shea Butter
- Coconut Oil
- Lactic Acid

Description:

- Promotes skin detoxification and protects against physical and chemical agents.
- Skin Calming – advised to prescribe to eczema and rosacea sufferers
- Moisturises the skin whilst cleansing
- Decreases sebum production.
- Improves skin appearance.
- Reduces skin roughness.

Skin Type: Normal, dry, dehydrated, sensitive, rosacea, excema, psoriasis.

CLEANSSES AND DECREASES THE SKIN (SURFACE OIL BUILD-UP AND IMPURITIES) TO ALLOW FOR EFFECTIVE PENETRATION OF ACTIVES. GENTLY REMOVES DEAD SKIN CELLS FROM THE SUPERFICIAL SKIN LAYER, WHILE MOISTURISING THE SKIN WITH THE CREAMY BASE.

2.2. Make-up Remover

Active Ingredients:

- Niacinamide (5 %)
- Glycerine
- Surfactants
- Vitamin E

Description:

- Removal of water & oil-based make-up.
- Antioxidant activity.
- Gently removes eye and lip make-up.
- Can be used as a “pre-cleanser”

Skin Type: For dry, sensitive, normal and combination skin

2.3. Vitamin & Mineral Spritz (100 ml)

Active Ingredients:

- Vitamin E
- Ceramides
- Glycerine
- Niacinamide (5 %)

Description:

- Enhances the skin barrier function.
- Strengthens and repairs the skin barrier.
- Improves skin imperfections.
- Has both anti-inflammatory and antioxidant activity.
- Benefits matrix protein synthesis.
- Enhances collagen production.
- Increases telomerase activity and delays cellular senescence.
- Increases resistance to barrier damage and helps keep the skin hydrated.
- Helps normalize skin by balancing ceramides and fatty acids in the stratum corneum.
- Can use instead of a toner.
- Perspiration control.
- Heat control.
- Sweat control.
- Hot Flashes.

Skin Type: all skin.

2.4. HA Contour Masque (50 ml)

Active Ingredients:

- Low molecular weight Hyaluronic Acid (2 %)
- Niacinamide
- Shea Butter
- Coconut oil
- Ceramides
- Tissue Protective Peptides
- Vitamin E

Description:

- Restores and improves elasticity and firmness.
- Repairs and maintains skin barrier function.
- Promotes natural hyaluronic acid accumulation therefore retains skin moisture.
- Exhibits a high, immediate, and long-lasting moisturising effect.
- Restores skin thickness and subsequently the skin's ability to repair damage caused by ageing, sun and the environment.
- Has stimulant, moisturising and rejuvenating effects on the skin which enhance brightness, vitality, and general condition of the skin.
- A rich formulation that assists in providing long lasting cellular hydration and restoring skin moisture. It boosts the production of extracellular matrix components such as collagen and elastin, thereby rejuvenating the skin whilst decreasing the appearance of lines and wrinkles.
- Reconstruction of the dermal matrix by increasing production of collagen and hyaluronic acid.
- Reinstates barrier integrity.

Directions: Apply to cleansed skin morning and/or night.

2.5. Enzymatic Therapy

Active Ingredients:

- Keratolytic Enzymes
- Vitamin E
- Allantoin
- Niacinamide (5 %)

Description:

- Exfoliant and moisturizer for oily skin.
- Great for acne, blackheads, corneocytes and whiteheads.
- Dissolves protein between dead keratinized cells and provides light enzymatic exfoliation.
- Retains moisture by forming a barrier on the surface of the skin.
- Excellent neutral moisturizer.
- Soothes and protects the skin from environmental damage.

Skin Type: oily, combination, acne.

Directions: Apply to a cleansed skin every evening. May flake.

2.6. Peptide Therapy

Active Ingredients:

- Tertiary Tissue Protective Peptides
- Niacinamide (5 %)
- Panthenol
- Ceramides
- Vitamin E

Description:

- Wound healing and skin barrier repair.
- Highly advanced skin calming, cellular repair and hydration therapy.
- Cell communicating ability to carry fibroblast and keratinocyte RNA & DNA via amino acid proteins.
- Transport active ingredients through membranes of cells without breaking them down.
- Anti-inflammatory effect on inflammatory markers.
- Occludes the skin.

Skin Type: all skin.

Directions: Use in combination with wound occlusion as homecare after peels and microneedling. You would apply Peptide Therapy in the morning and Wound Occlusion in the evening.

POST-OPERATIVE WOUND CARE, BINDING TISSUE THERAPY. ALWAYS STORE IN COOL PLACE, PEPTIDES ARE VERY SENSITIVE TO CHANGE IN MOLECULAR STRUCTURE IF ENVIRONMENT CHANGE. EFFECTIVE TO USE ON INFLAMED, DRY AND SENSITIVE SKINS. RELIEVES SYMPTOMS ASSOCIATED WITH ECZEMA AND PSORIASIS.

2.7. Translucent Day SPF30 (50 ml) / Translucent Day SPF30 Spritz (120 ml)

Active Ingredients:

- Hyaluronic Acid (2 %)
- UV Filters (4xUVA & UVB) (No Avobenzone – Allergens)
- Vitamin E
- Niacinamide (5 %)
- Zinc Oxide

Description:

- Wound care SPF.
- Provides SPF 30 protection.
- Translucent – disappears into skin.
- Assist in reducing the signs of photo ageing.
- Strong antioxidant.
- Densify pores.
- Works against blue light.
- Healing and prevention properties.
- Can go over or under your moisturizer/makeup.
- Can sleep with it on.
- Can use as your day moisturizer.

Skin Type: All skin.

Directions: Can use as your day moisturizer and SPF 30. It is not waterproof. Can go over or under your moisturizer/makeup. Should apply every 4 hours while outside. Close eyes while you spray the Spritz.

2.8. Retinol Night

Active Ingredients:

- Retinol (2.75 %)
- Niacinamide (5 %)
- Shea butter
- Peptides
- Ceramides
- Co-enzyme Q10

Description:

- Protects the cells from oxidative damage and ensures optimal mitochondrial activity.
- Visibly reduces the signs of ageing.
- Smoothens lines and wrinkles.
- Restructures and densifies the dermis.
- Reduces skin roughness.
- Reduces hyperpigmentation.
- Improves epithelisation of the skin.
- Improves fine lines and wrinkles.
- Helps to normalise the physiology of the epidermis.

Directions:

Do not use during the day as it contains retinol. Do not use with other retinol products. Do not use while pregnant.

Apply to cleansed skin in the evening.

RESTORES THE SKIN'S YOUTH AND PROMOTES THE DELAY OF CELLULAR AGING. IMPROVES AND PROTECTS THE SKIN AGAINST SIGNS OF SUN DAMAGE, ASSISTS IN CELLULAR ENERGY METABOLISM, PROMOTES MOISTURE CONTROL AND CONTAINS POWERFUL ANTIOXIDANTS TO REDUCE THE EFFECTS OF FREE RADICALS ON THE SKIN.

2.9. Eye Structure Gel (30 ml)

Active Ingredients:

- Tertiary Tissue Protective Peptide
- Niacinamide (5 %)
- Vitamin E
- Skin Tensing Agent
- Hyaluronic Acid (2 %)

Function of Ingredients:

- Like "BOTOX IN A BOTTLE".
- Reduces the depth of expression wrinkles.
- Promotes elastic fiber architecture.
- Decreases the visible effects of gravity on the skin.
- Fight against cutaneous sagging.
- Decreases the appearance of dark circles around the eyes.
- Diminishes smoker lines around mouth.

2.10. Stretchmark & Cellulite Therapy (100 ml)

Active Ingredients:

- Retinol (1.5 %)
- Niacinamide (5 %)
- Vitamin E
- Peptides
- Soy Protein
- Hyaluronic Acid (2 %)

Description:

- Stimulates the skin to produce natural collagen – Regenerating skin and encouraging the healing of stretch marks.
- Reduces the width, length and severity of stretch marks.
- Contains strong antioxidant for natural skin regeneration.
- Improves the blood circulation of the skin with massage and provides hydration.
- Hydration and plumping of the skin, providing collagen fibres to contract faster.
- Not suitable to use when pregnant.

Directions:

Contains Retinol. Do not use with other Retinol products. Do not use while pregnant. Only use at night.

Apply to cleansed skin at night.

2.11 Périphérique (50 ml)

Active Ingredients:

- Ceramides
- Niacinamide (5 %)
- Vitamin E
- Peptides
- Almond oil

Description:

- For severely dehydrated skin
- Old scar treatment – post surgical scar treatment, i.e., breast augmentation scars / mastopexy / abdominoplasty
- Skin lipid restoration
- Contains strong antioxidant for natural skin regeneration
- Advanced moisture retention

Skin Type: severely dehydrated, dry and scars.

3. SPECIALIZED PRODUCTS

3.1. Exfoliating Peel Kit (3 x 15 ml)

Active Ingredients:

- Retinol (1 %)
- Niacinamide (5 %)
- Glycolic Peel (10 %)
- Hyaluronic Acid (2 %)
- Salicylic Acid
- Vitamin E

Description:

- Stimulate new healthy cellular regeneration.
- Skin brightening.
- Remove dead skin from superficial epithelial layer this improves skin texture.
- Targets fibroblast cells stimulating collagen synthesis.
- Cellular longevity.
- Resurfaces the skin.
- For all skin, including stage 4 acne.

Size: (3 x 15 ml). Consumers should be able to get 4-5 treatments because will use more than supposed to. Skin Professionals should get 14-15 treatments when using 1 ml.

Directions: Should do every 14 days. Leave on overnight. Only do in the evenings since it contains retinol. Do not use with other retinol products. Do not use while pregnant.

3.2. Bio-Body Peel Set

Active Ingredients:

- Glycolic Acid (15 %)
- Citric acid (15 %)
- Salicylic Acid (15 %)
- Lactic Acid (15 %)

Description:

- Cellular restructuring and advanced skin hydration.
- Enhanced skin elasticity and restoring skin density.
- Promoting skin proliferation and removing corneocytes.

4. WOUND CARE PRODUCTS

4.1. Wound Occlusive

Active Ingredients:

- Medical honey (50 %)
- Vitamin E
- Niacinamide (5 %)
- Hyaluronic Acid (2 %)
- Xylitol
- Zinc Oxide
- Lactic Acid

Description:

- Cellular restructuring and advanced skin hydration.
- Enhanced skin elasticity and restoring skin density.
- Antiseptic, antimicrobial, antipyretic, anti-inflammatory, antioxidant, healing and cleansing (external and internal).

Directions: For after peels and micro-needling treatments: Apply in the evening 24 hours after micro-needling and/or peels. Apply every evening for 3-5 days. (see Peptide Therapy & Wound Occlusive Combo).

IT CAN BE USED IN INFECTED, ACUTE, INFLAMED WOUNDS, ACUTE SCARRING AND SKIN DISORDERS WHICH INCLUDES URTICARIA, SKIN ALLERGIES, DERMATITIS, AND PSORIASIS. IT CAN ALSO BE UTILIZED WHEN DEALING WITH BURNS AND BLISTERS. 2-3MM OF WOUND OCCLUSIVE SHOULD BE APPLIED TO AFFECTED AREA, WHERE AFTER THE WOUND IS CLOSED WITH SECONDARY DRESSING FOR 24H.

Wound Occlusive Treatment Protocol for wounds:

- The following steps can be followed when using Wound Occlusive, deviations in the standard protocol will be indicated:
- The wound should be properly cleaned by using normal saline, or other agents if indicated by the health care professional.
- Apply the Wound Occlusive as a thick paste to the wound bed.
- Use Gauze Dressing as a primary wound contact layer. Gauze Dressing may be substituted when appropriate with absorbent dressings (example, silver alginate).
- Secure the wound with crepe bandage for a minimum period of 48 hours.
- If no patient discomfort is observed, the period can be extended to 72 hours.
- It is not necessary to use other ointments or creams in conjunction with Wound Occlusive, due to the antimicrobial effect of honey, the main ingredient in this preparation.

4.2.

Peptide Therapy & Wound Occlusive Combo (2 x 15 ml)

Active Ingredients:

- Vitamin E
- Hyaluronic Acid (2 %)
- Peptides
- Niacinamide (5 %)

5. MATERNOLOGY RANGE

5.1. Maternal Cleanse

Active Ingredients:

- Coconut Oil
- Camellia Sinensis Leaf Green Tea Extract
- Menthol

Functions of Ingredients:

- Deep cleansing.
- Mild exfoliation.
- Skin calming.
- Unclogs congested pores.

MATERNAL CLEANSE PROMOTES MILD EXFOLIATION AND DEEP CLEANSING. THE SKIN CALMING PROPERTIES SOOTHES SKIN CELLS. ASSIST IN UNCLOGGING THE PORES. FRAGRANCE FREE, DYE FREE & PARABEN FREE.

5.2. Stabilizing Serum

Active Ingredients:

- Niacinamide (5 %)
- Vitamin E
- Hyaluronic acid (2 %)
- Lactic Acid
- Green tea tree extract

Functions of Ingredients:

- Skin calming.
- Soothes fine lines.
- Prevents skin discoloration.

THE STABILIZING SERUM CONSISTS OF SKIN CALMING PROPERTIES. ASSISTS WITH REDUCING THE APPEARANCE OF FINE LINES AND WRINKLES. HELPS REDUCE PIGMENTATION MARKS. FRAGRANCE FREE, DYE FREE & PARABEN FREE.

5.3. Maternal Nutri-Hydro Day SPF30

Active Ingredients:

- Niacinamide (5 %)
- Vitamin E
- Zinc Oxide
- UV Filters
- Peptides
- Hyaluronic acid (2 %)

Functions of Ingredients:

- Prevents skin from photo-aging.
- Prevents pigmentation.
- Controls oiliness on the skin.
- Reduces redness caused by UV radiation.
- Can be used as a day moisturizer.
- Mainly a physical sunscreen.

MATERNAL NUTRI-HYDRO DAY SPF30 CONTROLS SEBUM PRODUCTION ON THE SURFACE OF THE SKIN. REDUCES THE APPEARANCE OF REDNESS, HAVING A CALMING EFFECT ON THE SKIN SURFACE AND PREVENTS PHOTO-AGING. FRAGRANCE FREE, DYE FREE, PARABEN FREE AND PHENOXYETHANOL FREE.

5.4. Maternal Nutri-Hydro Night Therapy

Active Ingredients:

- Niacinamide (5 %)
- Vitamin E
- Hyaluronic acid (2 %)
- Allantoin
- Peptides
- Shea Butter

Functions of Ingredients:

- Provides cellular hydration.
- Rebalances the biodiversity of the skin.
- Restores the skin barrier.

MATERNAL NUTRI-HYDRO NIGHT THERAPY CREATES HOMEOSTASIS ON SKIN. FRAGRANCE FREE, DYE FREE, PARABEN FREE & PHENOXYETHANOL FREE.

5.5 Maternal Calming Tissue Oil

Active Ingredients:

- Co-Enzyme Q10
- Vitamin E
- Lactic Acid
- Green Tea Extract

Functions of Ingredients:

- Improves elasticity.
- Prevents the appearance of stretchmarks.
- Locks in moisture.

MATERNAL CALMING TISSUE OIL IMPROVES THE SKIN ELASTICITY BY LOCKING IN THE MOISTURE INSIDE THE SKIN THUS PREVENTING STRETCHMARKS FROM OCCURRING AND HYDRATING THE SKIN. FRAGRANCE FREE, DYE FREE, PARABEN FREE & PHENOXYETHANOL FREE.

5.6. Maternal Nipple Ointment

Active Ingredients:

- Vitamin E
- Lactic Acid
- Green Tea tree extract
- Olive oil (Olea Europaea oil)
- Synthesised lanolin

Functions of Ingredients:

- Prevent dryness, scaling and irritation.
- Moisturizing and nourishing.
- Calming.

NIPPLE OINTMENT HELPS PREVENT AND TREAT DRY, CRACKED MAMMARY PAPILLA, AND SHOULD BE APPLIED AFTER BREAST FEEDING. FRAGRANCE FREE, DYE FREE, PARABEN FREE & PHENOXYETHANOL FREE.
